

In cooperation with the Royal Danish Embassy, DCCJ is proud to announce that we invite our members to a meeting with the Danish Education and Research Committee.

We encourage our members to open up for a fruitful discussion, sharing your knowledge and input within the field of education and or research & development issues, as well as challenges and chances for Danish export to Japan.

The committee will consist of approximately 15 people from Denmark including the Chair and Vice Chairs of the committee.

Japan is a leading science- and innovation nation that ranges in the international top on most parameters- thus chosen as the country to study for the committee, and as a result give input to the Danish government in areas of education, research and innovation.

#### ***About the Education and Research Committee***

The committee addresses all kinds of topics within:

- tertiary education
- institutional matters
- research
- study grants
- innovation
- research councils and foundations, including education and research funding

Chair

Christine Antorini

Vicechair

Henrik Dahl

Jens Henrik Thulesen Dahl

Further education, research and study grants are the primary topics addressed by the Education and Research Committee. Issues regarding education and research policies and the government's attitude to these define the committee's agenda.
